## 2. Citations and explanations:

The documents cited in the International Search Report represent the prior art. The claimed invention stated claims 1 -20 is not anticipated by these documents. None of the documents or any relevant combination of them reveals an arrangement and a method controlling a combustion for engine described by these claims.

According to the arguments stated above, the invention claimed in claims 1 - 20 is novel and considered to involve an inventive step. The industrial applicability of the claimed invention is obvious.
